SUBJECT  
OBJET YELLOWKNIFE ARSENIC SURVEY

It appears that we are well along in another "round-robin" contest with Dr. de Villiers. You will recall that he set an international record of delay in preparation of his report on the arsenic survey of Yellowknife. I cannot recall the exact interim period but it was somewhere in the neighborhood of three and one half years.

I refer you to my November 15th memo in which I enclosed a narrative from Dr. Otto Schaefer containing comments and questions. I realize that that was only ten months ago but perhaps from past experience a reminder every three months for the next two years will be productive of a definitive reply from Dr. de Villiers.

Alternatively, of course, we could take drastic action and read this memo off to Dr. de Villiers' secretary with the faint hope that she might see fit to bring it to his attention by whatever means that could be achieved.
