AIR POLLUTION - ARSENIC - YELLOWKNIFE

Replying to your memo of December 31, 1970, we are as yet unable to confirm that Dr. Winthrop will be making the necessary arrangements to have the air sampling undertaken as recommended.

A letter has been sent to the Director General of Health Services requesting the survey. To date we have not had a reply.

The transfer of the Air Pollution Section to the Department of the Environment may present some problems.
