Arsenic

We require daily sampling in order to keep abreast of what is happening when arsenic levels are high, and on July 4, 1969 Mr. Slupsky requested Mr. Gillis to do so. Our chemist has instructions to phone us if the arsenic is very high. For this reason, Mr. Gillis should have sent samples to the chemist as fast as he took them. Believe it or not, he saved a month's supply of samples, and sent them to the chemist in one big box.
