England

Dear Tom:

Thank you for your letter of May 1st bringing me up-to-date on your research. I have passed along your request for additional  $As_2O_3$  and work will start on this right away.

I have also talked to Pat Raleigh concerning your up-coming trip in late June. It is unlikely that I will be in Toronto at that time, however, I will be in Yellowknife. We therefore suggest that you travel to Yellowknife on the 24th or 25th and stay for a few days. Pat would come up with you.

Accommodation will be available in our Guest House and Pat can have the airline ticketing done from Toronto to Yellowknife return if this would make it easier for you.

Looking forward to your trip,

Sincerely yours,

*Dave E.*
