Dear Mr. Koelewijn;

It is our understanding that your company intends to wind down its northern operations and, in doing so, will terminate its lease with CNR for the 31 acre site at Enterprise, NWT.

It so happens that Giant Yellowknife Mines Ltd. is investigating the possibility of establishing a bulk transfer facility in the area and your site appears to be quite suitable. The location is good and a rail siding has already been built. It is unlikely that the building will be of much value to Giant however, since the transfer facility will be quite specialized, requiring a tractor trailer and a bulk railcar to sit side by side while the pneumatic transfer is taking place.

If you are interested in the possibility of disposing of your property in a manner that may be mutually beneficial, we would like to hear from you.

Yours truly  
GIANT YELLOWKNIFE MINES LTD.

Kent Morton
