SID ROID CALLED ON MONDAY RE MEETING WITH EPS TECH FORCE IN OTTAWA
TODAY TO DISCUSS CARPENTRY LATEST RE STOCK TEST RESULTS. SID TOLD
DAN THAT EPS IS GOING TO PROPOSE AN AVERAGE EMISSION STANDARD OF
15 GRAINS PER SID. CU FT. DAN WANTS TO KNOW IF HE COULD MEET THIS
ON A REGULAR BASIS. IF NOT, HE WILL TRY TO GET JOHN PARSONS TO
ARRANGE A MEETING ON A HIGHER LEVEL. FROM OUR LAST RESULTS IN
LOT AND NOV, WE WERE DOING BETTER. .015 GRAINS/SCF WOULD MEAN 80 LBS
PER DAY.

WHAT DO YOU SAY?
