K. BLOWER

NOV 16 1982

Mr. Ken Blower
Mine Manager
Giant Yellowknife Mines Ltd.
Yellowknife, N.W.T.

Dear Mr. Blower:

Re: Arsenic Survey - Giant Yellowknife Mine Ltd.

Further to our earlier conversation. This is to confirm that Mr. Al Patrick, Environmental Engineer, Occupational Health Unit, Medical Services, has indicated that he will be in Yellowknife during the second week of December and that the arsenic survey will be carried out at the Giant Mine Site from December 7-11 inclusive during the day and evening shifts.

I shall arrange a meeting with Mr. Kent Morton, Mill Superintendent, to enable a detailed discussion of the survey.

Thank you for your co-operation in this matter.

Yours truly,

MINING INSPECTION SERVICES

Sylvester Wong, P. Eng.
Environmental Engineer
