SITUATION W A MOON

HAVE TALKED TO C GIRDWOOD OF MOON. HE WAS AT S.P.S. MEETING JANUARY 24 AS PART OF CAMPBELL GROUP. POINTS RE MOON:

(A) EMISSION LIMIT NUMBER WAS NOT DISCUSSED AT MEETING. LEMMON REFUSED TO EVEN MENTION A POSSIBLE NUMBER OR A DATE WHEN HE WOULD HAVE A NUMBER TO DISCUSS. THE ONLY NUMBER THEY GOT AT ALL WAS PLIED OUT OF GAGA: OVER PHONE EVENING OF JAN 23. GAGA SAID THEN THAT LEMMON STILL THINKING 12 TO 13 ML PER GIGGIE A YEAR. THIS WOULD TRANSLATE TO 0.007 GRAMS/SCF OR LESS. (NOTE THE DIFFERENCE FROM YOUR 1.1. YESTERDAY).
 $.0055 - .0069 \text{ grams/scf}$
 $= 29.45 - 36.94 \text{ lb./day.}$

(B) MEETING JANUARY 24 WAS BRIEF BUT ANTAGONISTIC WITH LEMMON TRYING TO DISTORT POLLUTER REPORT AND DISCARD MORE OF THE BACKGROUND TEST INFORMATION.

(C) CAMPBELL GROUP VISITED A BOARD OF MINING ASSOCIATION OF CANADA TO DISCUSS AVERAGES OF PRESSURE RIGGED UP. EDWIS IS TO SEE DEPUTY MINISTER OF ENERGY, MINES AND TECHNICALS TO GET HIS SUPPORT IN PRESSURING GOV. CANADA INTO TAKING MORE REALISTIC VIEW. EITHER GIRDWOOD OR I SHOULD HEAR FROM EDWIS WITHIN A COUPLE OF DAYS.

(D) CAMPBELL NOW IS NOT GOING TO DO MORE UNTIL EITHER MINES BRANCH ASK HELP, OR ENVIRONMENT PROPOSE A DEFINITE LIMIT NUMBER.

MY THOUGHTS AT THIS STAGE ARE:

(1) EITHER GIANT NOR A.W.T. HAVE ANYTHING FIRM ON WHICH TO BASE A FORMAL BRIEF TO SENIOR ENV. CAN. PEOPLE. I.E. WE CAN'T TELL UNTIL WE ARE HURT. IF BILLING OR PEPPER HAVE ANY UNOFFICIAL CHANNELS THEY MIGHT ASK SOME POINTED QUESTIONS ABOUT THE WAY THIS IS BEING HANDLED BUT WE CAN'T OBJECT TO A LIMIT UNTIL WE DEFINITELY KNOW WHAT THE PROPOSED LIMIT WILL BE.

IF EITHER YOU OR BILLING WISH TO DISCUSS THIS MORE, I EXPECT TO BE IN OFFICE ALL DAY TODAY AND TOMORROW.
