STU REID CALLED D. BILLING RE MEETING WITH EPS TASK FORCE IN OTTAWA TODAY TO DISCUSS CAMPBELLS LATEST AT STACK TEST RESULTS. STU TOLD DAN THAT EPS IS GOINT TO PROPOSE AN ARSENIC EMISSION STANDARD OF 15 GRAINS PER STD. CU FT. DAN WANTS TO KNOW IF WE COULD MEET THIS ON A REGULAR BASIS. IF NOT, HE WILL TRY TO GET JOHN PARKER TO ARRANGE A MEETING ON A HIGHER LEVEL. FROM OUR LAST RESULTS IN OCT AND NOV. WE WERE DOING BETTER .015 GRAMS/SCF WOULD MEAN 63 LBS PER DAY.
WHAT DO YOU SAY?
