Yellowknife Division

February 9, 1988

Ms. Winnie Cadieux, Chairperson,
Enterprise Settlement Council,
P.O. Box 1447,
Hay River, N.W.T. X0E 0R0

Dear Ms. Cadieux:

Re: Arsenic Transfer Facility, Enterprise, N.W.T.

Please find the attached descriptive information regarding our proposed transfer facility. We have not yet progressed to the detailed engineering stage and so the information may be somewhat lacking in specifics. Be assured however, that the facility will incorporate best available technology for prevention of environmental damage due to fugitive dust emissions or accidental spills.

As mentioned, Giant is prepared to meet with the Settlement Council to explain the operation of the transfer facility at a convenient date.

Yours truly,

GIANT YELLOWKNIFE MINES LIMITED
