SUBJECT

MESSAGE

Although the pilot testwork will be done in 3 stages that can be stopped at any time a one month lead time on drum delivery means that there must be some overlap. The attached schedule shows that we must collect dust for stages II & III before stage I finishing test is complete. - To do this we'll have to buy an additional 190 drums.

REPLY

If the program is stopped at stage I maybe Con will buy them from us.
