Re: Request to Use CANUTEC's Emergency Telephone Number

Dear Mr. Morton:

This is in response to your request to use CANUTEC's emergency number [(613) 996-6666] in lieu of your 24 hour emergency telephone number on your shipping documents as required by paragraph 4.8 (1)(1) of the Transportation of Dangerous Goods Regulations.

If you wish to use CANUTEC's number, the following must be provided to us before we can permit the use of our telephone number on your shipping documents:

1. a completed Request to Use CANUTEC's Emergency Telephone Number form (attached) that includes;
 - a. a 24 hour emergency telephone number where a representative of your company or the manufacturer can be reached for information concerning your products and also to request on-site assistance, if necessary. Where your company does not have access to a 24 hour business telephone number, you are required to provide your daytime business telephone number(s) and at least three (3) after hours telephone numbers where a representative of your company may be contacted in the case of an emergency involving your products, and
 - b. signed certification (bottom portion of attached form) that the telephone number(s) exist and can be used to obtain further emergency response related information.
2. a complete and signed material safety data sheet for each product your company and subsidiary companies offer for transport; and
3. a complete list of the companies and subsidiaries that would be using CANUTEC's emergency telephone number and a list of contact names and telephone numbers for these subsidiaries.

It must be emphasized that, for CANUTEC to continue providing you with after hours coverage, any changes to the information provided must be communicated to CANUTEC as soon as they occur.

Thank you for your co-operation.

Yours sincerely,

M. Cloutier
Manager, CANUTEC
