

To Mill Employees
From K. Morton
Subject Recent Dust Survey Results

Date August 12, 1977

Ref. _____

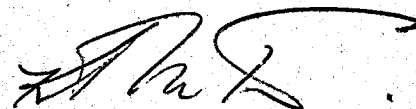

A continuous dust sampling program is presently being initiated for the purpose of protecting operating personnel from the risk of exposure to high dust concentrations.

The full co-operation of all concerned in wearing and/or operating the dust samplers is required if meaningful results are to be obtained.

<u>SAMPLE NUMBER</u>	<u>WORK PLACE</u>	<u>TYPE DUST COLLECTED</u>	<u>DUST CONCENTRATION mg/M³</u>	<u>ACCEPTABLE LIMITS mg/M³</u>
1	Crusher Op.	Respirable	1.34	5.00
2	Cottrell Area	Total	Nil	10.00
3	Soln. Desk	Total	1.95	10.00
4	Flotation Desk	Total	1.90	10.00
5	Soln. Desk	Total	0.23	10.00
6	Flotation Desk	Total	0.40	10.00
7	Roaster Filter Op.	Respirable	1.48	5.00
8	Roaster Op.	Respirable	2.76	5.00

Note: Acceptable limits are those determined by the American Conference of Governmental Industrial Hygienists.

Thank you.

K. Morton.
