Dear Mr. Baillie:

Re: Your Offer to Assist Us With Dust
and Ventilation Survey
Your Letter April 1, 1977

We would like to suggest that, if convenient, Mr. Wojakowski could come to Giant on June 6th to assist our Dust & Ventilation Engineer in his initial survey underground.

We have recently purchased a gravimetric sampling instrument, Bendix Super Sampler, BDX99, with BDX 4 pump and Model 3900 sampling head, to sample the dust in the Roaster, Cottrell and Baghouse for arsenic. If Mr. Wojakowski is familiar with this equipment, perhaps he could instruct someone in our mill lab in its use.

Yours very truly,
