MEMORANDUM

To: Sadek E. El-Alfy
From: Larry Connell
Date: September 20, 1995
Subject: Giant - Study of the U/G Storage of Arsenic

With the intent of keeping this project on schedule, I have arranged to meet Fred Matich along with Erik Madsen in Toronto on October 10th and 11th to review the data we have accumulated and to divide up the work that needs to be completed before the end of December. I should put in a blanket AFE to cover off the remainder of 1995 so that we can act immediately after the meeting to award work to the necessary consultants (Hydrologist and a rock mechanics expert). I suggest an AFE for \$25,000 should cover all of our consulting fees on this project between now and the end of December.
