Attention: Larry Connell, P.Eng.  
Manager of Environmental Services

Dear Sir:

**RE: DRAFT REPORT  
GUIDELINE DOCUMENT ON ARSENIC  
SEACOR JOB NO. C0440-001**

We are pleased to submit four copies of our draft report: three copies addressed to Erik Madsen, Superintendent, Environmental Services, Northwest Territories Division and one to yourself. We have *not* included the contents of any of the Appendices with this draft report as we would like input from Royal Oak on the most pertinent papers to include.

We look forward to your comments and to future opportunities for working with Royal Oak Mines.

Yours truly,  
SEACOR Environmental Engineering Inc.

Serena Domvile  
Principal Scientist
