Mr. David Krofchak, President,  
David Krofchak Limited,  
160 Torbay Road,  
MARKHAM, Ontario. L3R 1G6

Gentlemen:

Re: Proposed Study of Mine-Mill Waste Streams  
Treatment and Disposal To Be Conducted By  
David Krofchak Limited Using Samples Pro-  
vided by Giant Yellowknife Mines Limited  
Dept. Supply & Services Contract # 04SS KE204-7-EP113

We have your letter of November 28, 1977 in which you announce to us that you have been awarded a contract by the Department of Supply and Services to test the feasibility of using your solidification process on various samples of waste products originating from our mill or concentrator.

You have assumed that we at Giant are aware of this proposed study and were probably consulted in its inception. However, this is not the case. And I would think that before this project can begin that Dr. D.B. Cohen should come to Yellowknife to discuss the matter with us before you have our approval to visit our property, or obtain any samples.

I assume that along with the samples required that you will be asking for access to certain operating data and perhaps even costs of our operation. Naturally such information is confidential and cannot be released without our consent.

While we appreciate your position, I feel that the Government has gone about things in a manner designed best to alienate itself from our good graces rather than to seek our co-operation.

Yours very truly,  
GIANT YELLOWKNIFE MINES LIMITED
